# Tomorrow's solution

# The Missing Link

## The Skipton to Colne rail line: linking Lancashire & Yorkshire

Key regions within Lancashire and Yorkshire need;

- Sustainable economic growth
- Further investment in modern public transport
- Better connections between areas of economic disadvantage and areas of economic opportunity

Rebuilding just 12 miles of disused rail line and extending the attractive Airedale line services into East Lancashire ..... thus creating a direct & fast new route from Burnley into the heart of Leeds. This will benefit commuters, shoppers, tourists, business & industry, freight transport, and more.

Connecting Communities  
across The North

Please support SELRAP's campaign

- To join SELRAP, please complete this form and mail it to our Membership Secretary, or contact him directly.
- Annual subscription fee: £8.00 (£5.00 concessions)
