

Today's challenges

Tomorrow's solution

The Northern Link

The Skipton to Colne rail line: linking Lancashire & Yorkshire

Key regions within Lancashire and Yorkshire need:

- Sustainable economic growth
- Further investment in modern public transport
- Better connections between areas of economic disadvantage and areas of economic opportunity

Rebuilding just 12 miles of disused rail line and extending the attractive Airedale line services into East Lancashire thus creating a direct & fast new route from Burnley into the heart of Leeds. This will benefit commuters, shoppers, tourists, business & industry, freight transport, and more.

Please support SELRAP's campaign

Donations always welcome regardless of whether you are a member of SELRAP, or not!

You can help progress this far-reaching scheme still further by lobbying your Councillor[s] and MP. Rail industry policy & decision makers are worth a try, too. But don't stop there. Spread the message still further.

You might also care to join SELRAP:

- Please get in touch with our Membership Secretary, whose contact details can be found below.
- Annual subscription fees: £8.00 (£5.00 concessions); Life Member £60.00.
